ELEKTROPIKA

INTERNATIONAL JOURNAL OF ELECTRICAL, ELECTRONIC ENGINEERING AND TECHNOLOGY

THEME:

Transforming the well-being of the bottom billion through innovations in electrical and electronic engineering and technology.

AIM AND SCOPE:

The main aim of ELEKTROPIKA is to publish research and development works in electrical and electronic engineering and technology that improve the livelihood of the under-privileged and deprived communities. ELEKTROPIKA solicits papers related to sustainable endeavours that contribute to theoretical advancements and practical solutions in the general field of electrical and electronic engineering and technology; undertaking issues in social, economy, environment, healthcare, etc. faced by the bottom billion, especially in the tropical region.

The scope of the publications is extensive, accommodating topics on theory, modeling, design and analysis in areas which include, but are not limited to: robotics, vision and signal processing, telecommunications and wireless technology, control systems, artificial intelligence, data processing, power, electronics and CAD and manufacturing. Concept or Application is affiliated to the needs of the masses in the domain of biomedical system, agriculture, poverty, people and resource management, CQI, techno-economics, transportation, education and calamity.

Board of Editorial Advisors

Professor Aini Hussain (Malaysia)
Professor B. Srinivasan (Australia)
Professor C.P. Lim (Malaysia)
Professor Ju-Jang Lee (Korea)
Professor Lakhmi Jain (Australia)
Professor Mohd Rizal Arshad (Malaysia)
Professor Mohd. Zaid Abdullah (Malaysia)
Professor V.R. Singh (India)
Assoc. Prof. Dr. Hafizah Husain (Malaysia)
Dr. Fiona Williams (Germany)
Dr. George Coghill (New Zealand)
